

# **Dual education system**

The dual system of training is one of the most effective ways of professional training. Its peculiarity is that the major part of the process of professional training takes place not in an educational institution, but at the enterprise. The dual system of professional training is a form that combines training in an educational organization with mandatory stages of training and practical work, ensuring the work of students at the enterprise with equal responsibility of the enterprise, educational institution and student.

The list of clinical bases for dual training was approved on the basis of the order of the Minister of Education and Science dated January 29, 2016 No. 107 "On approval of the Rules for organizing and conducting professional practice for organizations of technical and vocational, post-secondary education and determining enterprises (organizations) as practice bases", the order of the Minister of Health of the Republic of Kazakhstan dated December 21, 2020 No. ҚР ДСМ-304/2020 "On approval of the provisions on the clinical base, clinic of an educational organization in the field of health care, university hospital, residency base, integrated academic medical center and the requirements imposed on them"Based on the order of the Ministry of Education and Science of the Republic of Kazakhstan dated January 28, 2016 "On approval of the forms of a standard agreement on professional practice and dual training for technical and vocational, post-secondary education" No. 93 - tripartite agreements "college-enterprise-student" for professional practice were concluded.
